WATER, WATER EVERYWHERE...

TREND

Water is being used as a design theme in a growing number of spas, including Huvafen Fushi in the Maldives (see page 20), where treatment rooms are underwater. At the new Amrita Spa at the **Raffles Resort Canouan Island**, treatments take place over the water, with glass-bottomed rooms looking down into the lagoon. Reached by boat, these treatment rooms offer privacy and the ultimate in soothing surroundings, with blue mosaic designs reflecting the different colours of water and light around the island. *Raffles Resort Canouan Island* (+1 784 458 8000; www.afflescanouan.com), from \$345 a room. Book with Abercrombie & Kent (0845 070 0610; www.abercrombiekent.co.uk).
